WEB PROGRAMMING ICP1

RajendraKumar Ganji: rgn42@umkc.edu

Github:

https://github.com/Rajendraganji/WebCourse2022/tree/main/WebPart/ICP1
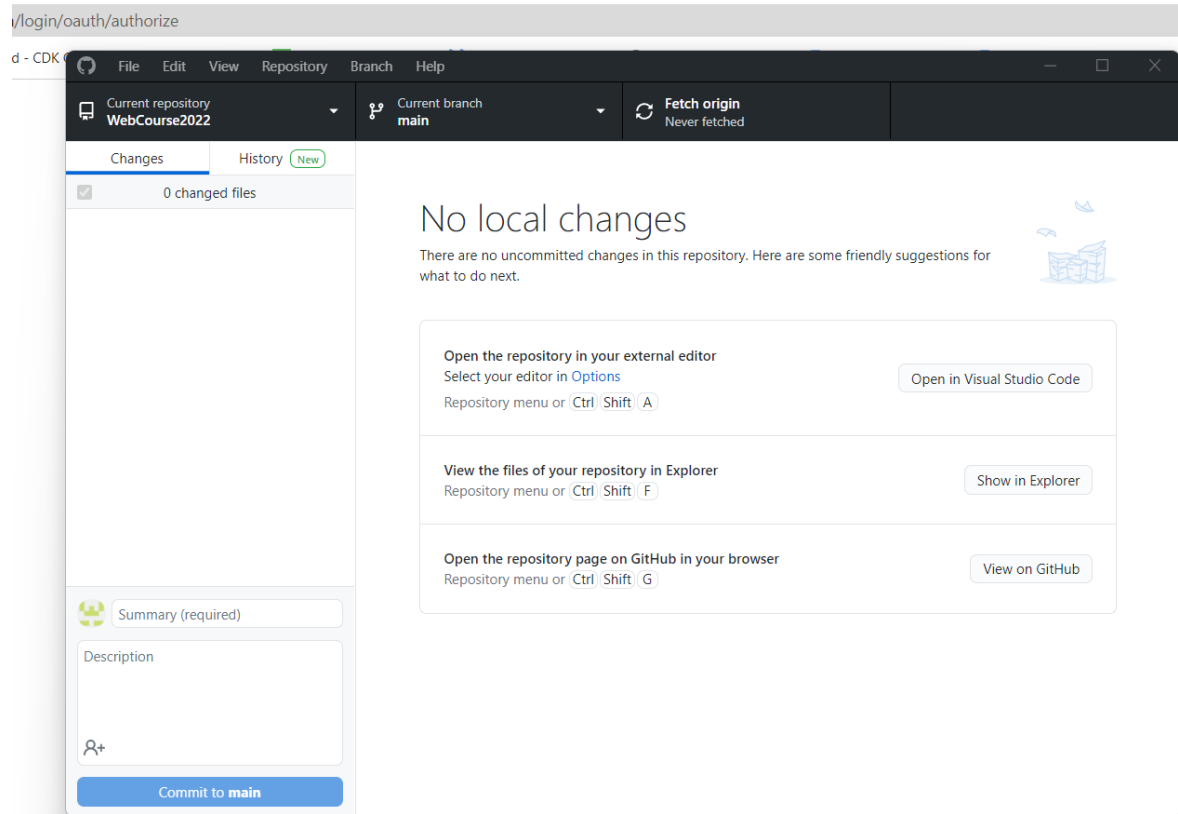

1)Installed VS Code IDE as I have very good experience with it.
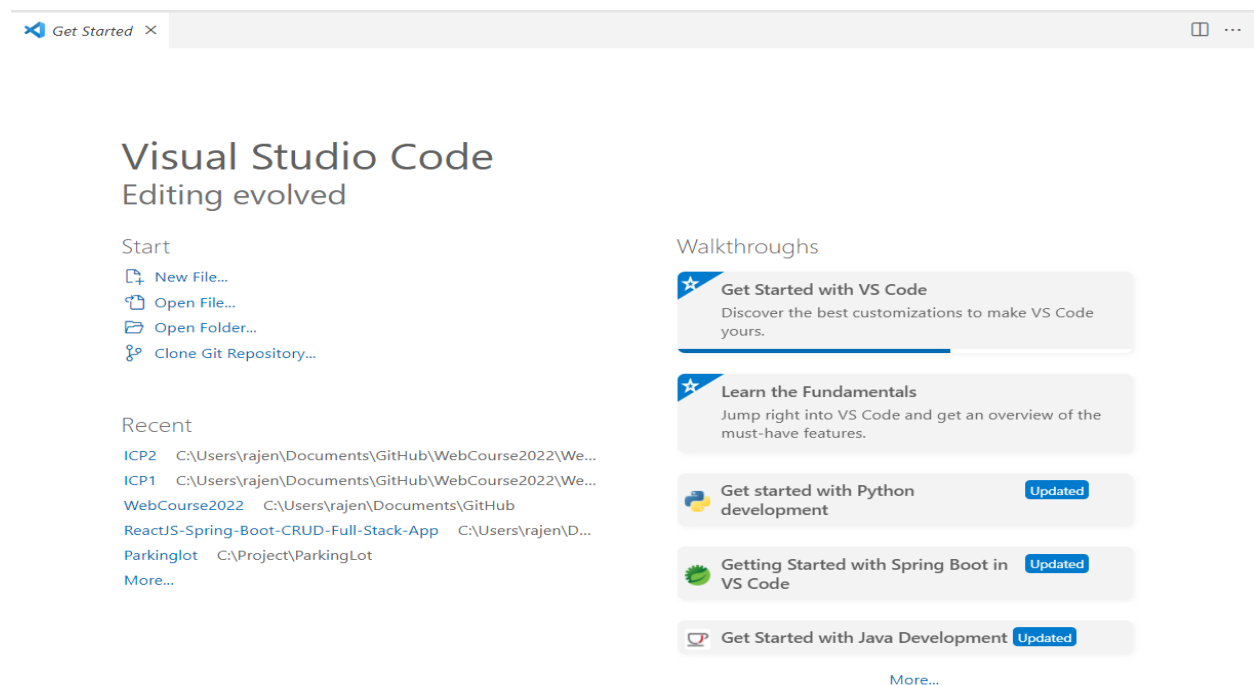

2. I have cloned the git repository into the local machine.

3. Below is the screenshot of my repository

WebCourse2022 -> WebPart (Folder) -> ICP1 & README.md

4. Created Html document index.html in the ICP1 folder.

   Selected the changes then committed with a message and then pushed to the repository.
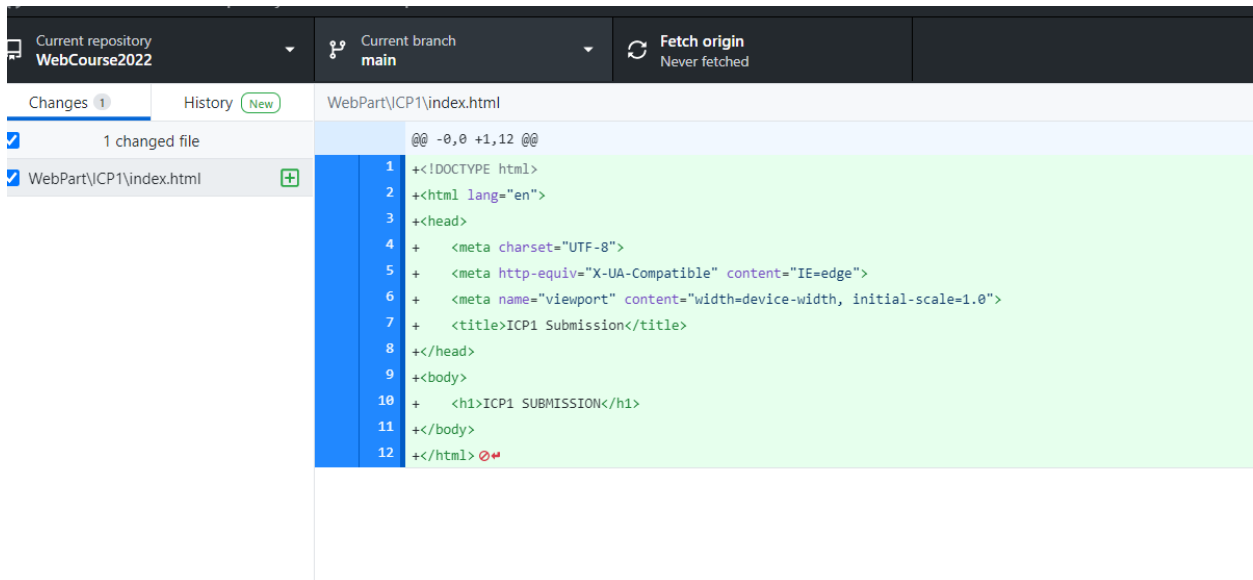

5. About my current repository in Readme.md file

6.Created wiki page and written What I have learned

ICP1

Rajendra kumar edited this page now · 1 revision

Welcome to the WebCourse2022 wiki!

This is my first web programming ICP1 task

Here, I have learned the following:

1. I came to know about IDE. I'm currently using Visual studio code IDE.
2. I learned about github desktop
3. I learned how to create repository and folders in them.
4. I did also learn how to create a branch and make a pull request.

+ Add a custom footer

7.creating a branch for the repo and making a pull request
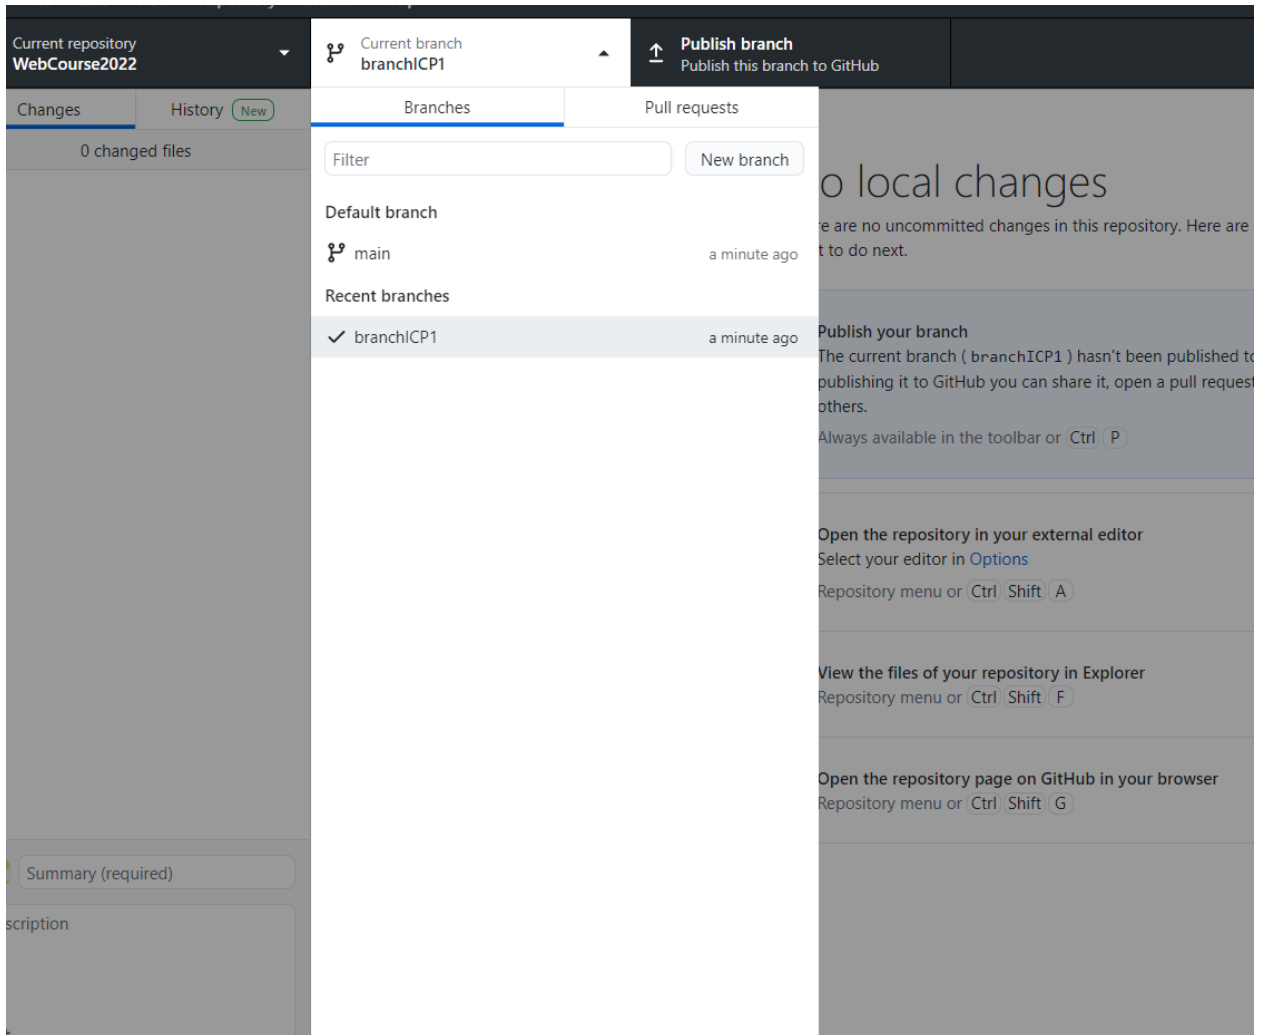

Made changes to the code for making a pull request.

Current repository
WebCourse2022

Current branch
branchICP1

↑ **Publish branch**
Publish this branch to GitHub

```

8. Creating a pull request to merge my current branch on to my main branch.

Open a pull request

Create a new pull request by comparing changes across two branches. If you need to, you can also compare across forks.

⇅ base: main ▾ ← compare: branchICP1 ▾   ✓ **Able to merge**. These branches can be automatically merged.

made changes to the index file
